Department for Phytosanitary  
measures

# Plant protection organization

**MARD**

**Main Department for Plant Health  
and Soil conservation**

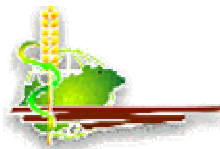

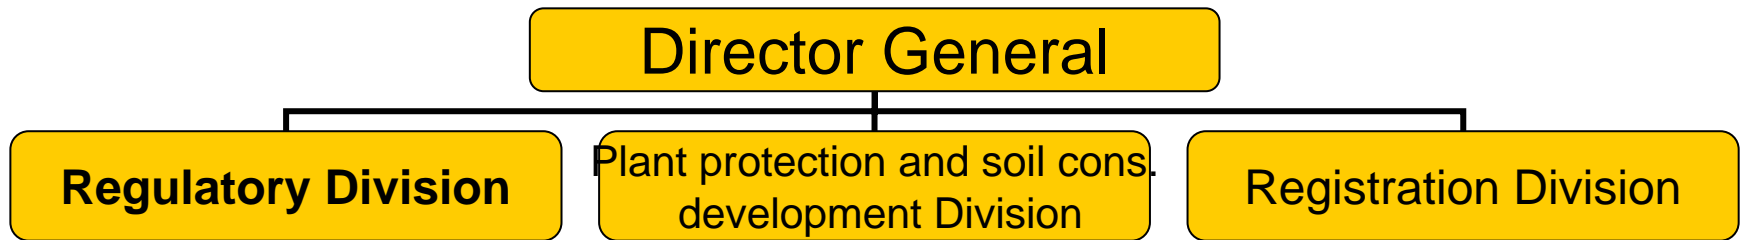

**Central Service for Plant Protection  
and Soil Conservation**

**19 County Services for Plant Protection  
and Soil Conservation**

**11 BIPs**

# Central Service for Plant Protection and Soil Conservation

# Central Service for Plant Protection and Soil Conservation

## Regulatory Division

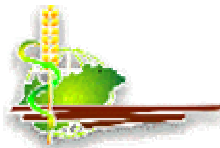

Soil Conservation

Plant Protection

**Plant Health**

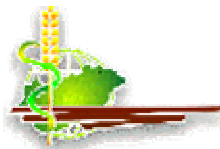

Information technology

Laboratory for Pest Diagnostics

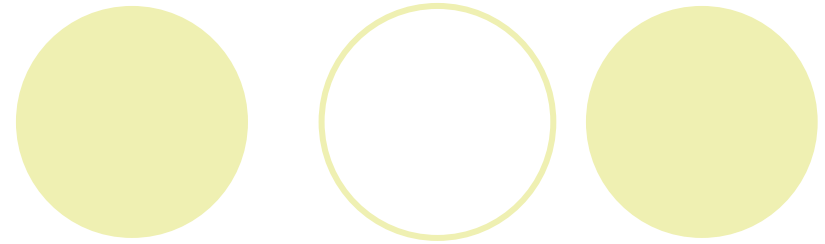

# BIPs

- **Záhony, Rösztke, Letenye, Nagylak (road)**
- **BP. Ferihegy airport**
- **BP. Main Post Office**
- **Eperjeske, Kelebia, Gyékényes (railway)**
- **Mohács (harbour), Lökösháza (railway)**

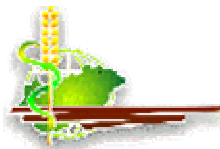

# Import inspection

- Documentary check (PC)
- Identity check (documents/consignment)
- Plant health check (visual check, sampling, *Globodera*)

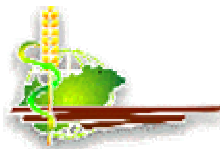

○ OK  release

○ Not OK  reject, destruction, treatment

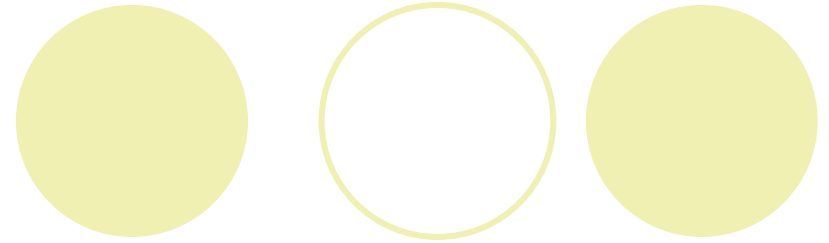

# Inspection

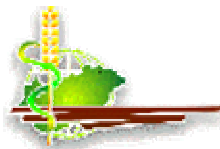

- Inspection at the BIP
  - Issuing plant passport if needed
  - Sampling if needed
    - Phytosanitary
    - PP residue
    - Micotoxin

# Communication

- Within Hungary
  - Stamp on the documents
  - Preliminary PC (to the place of destination)
- To EU
  - Stamp on the documents
  - Plant passport if needed

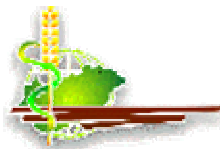

# Import monitoring

- Monitoring of wood consignment at the Ukrainian border for *Bursaphelenchus*

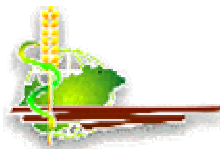

# Inspectors

- 7 inspectors/BIP
  - Identification card, stamp with number
- Graduates
  - University decree – agriculture or horticulture
  - Civil servant – special examination for civil service
  - Good PC skill – laptop, PHYSAN
- Training
  - Basic
  - Yearly trainings for inspectors
  - twinning

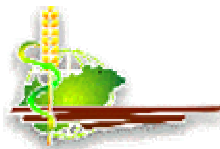

# General figures on import 2003.

- Import inspection: total 50.325 lots
  - Ware potato 3.269 lots
  - Seed potato: 473 lots
  - Citrus: 3.274 lots

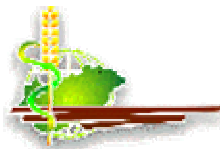

# Laboratories

- **I. level – laboratories at BIPs**
- **II. level – regional identification and diagnostic laboratories**
- **III. level – central pest diagnostic laboratories (KKDL /CPDL/, BVKFL /BPQDL/, Bacteriological Laboratory, Virological Laboratory and quarantine glass house in Velence and Kecskemét**

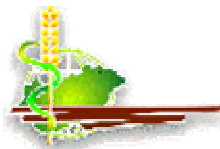

NEW

- **PRA work committee**
- **New system of survey collaboration with Pest Diagnostic Laboratories of the CSPPSC (according to FAO ISPM no 6)**
- **Phytosanitary methodology (in two part) (for inspectors and for diagnostics)**

NEW

- **Converting PHYSAN to Windows**
  - **New elements: registration system, plant passport system, ZP system, notification system**
- **Trainings**
  - **New feed-back system (TLO)**
  - **Phare-twinning (inspectors on BIPs)**

Thank you!
